**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. This application contains claims directed to the following patentably distinct species of the claimed invention:
  - a. Encasing material: Species A directed to Fig. 1; Species B directed to Fig. 2; Species C directed to Fig. 3.
  - b. Reactive composite material: Species D directed to Fig. 4; Species E directed to Fig. 5; Species F directed to Fig. 6; Species G directed to Fig. 7; Species H directed to Fig. 8; Species I directed to Fig. 9.
  - c. If applicable: Species J directed to encasement material comprising chemically tape; Species K directed to encasement material comprising inert tape; Species L directed to an encasement comprising a polymeric material created by coating and curing (shrink curing); Species M directed to an encasement comprising a polymeric material created by extruding and curing.
  - d. If applicable: Species N directed to an elongate structure comprising a one-piece structure; Species O directed to an elongate structure comprising an assembly.
  - e. If applicable: Species P directed to an elongate structure comprising metal; Species Q directed to an elongate structure comprising ceramics.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species **from each lettered group** for prosecution on the merits to which the claims shall be

Art Unit: 3641

restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was not made to an attorney of record on 06/06/05 to request an oral election to the above restriction requirement because of the complicated nature of the restriction requirement.

Art Unit: 3641

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Troy Chambers whose telephone number is 571-272-6874. The examiner can normally be reached on 8 a.m. - 5 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael J. Carone can be reached on 703-308-5870. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
